

10.04.2024

Dear

Please find below the latest planting numbers for the state of Gujarat as on 08th April 2024 where we would have a small summer crop available once again during End May - June.

Groundnut	3 years average	Area of Summer 2023 Corresponding Period	Area of Summer 2024 Corresponding period
	58,058 hectares	52,208 hectares	56,205 hectares

As you can see, the total acreage is more or less in line with the plantings for summer 2023 as well as the 3 year average. There has been a shortage of water for irrigation this season so it remains to see how it will impact the yields and therefore the final quantities harvested.

Since this new material will only be the Spanish / Java / Java Type, we don't expect to see any significant changes in pricing. The Bolds are already in short supply for the larger sizes and we are facing challenges to source good quality, low afla material for the EU markets. Hopefully, with the summer crop we may see some business to the EU markets for the Javas at reasonable prices.

In the interim, South India has produced a crop of the Java/Java Type, which is currently being utilized for domestic markets and exported to South East Asian markets at a premium over the Gujarat crop, owing to its light pink skin when freshly harvested.

Meanwhile, high peanut prices in Brazil are redirecting some business to India for both raw and blanched peanuts, as Argentina has yet to begin its exports. This shift in business could have been more impactful if not for the elevated freight rates resulting from the Red Sea situation. Despite this, India's market presence in South East Asia remains strong, though it continues to face challenges in maximizing its potential in Western markets.

The crop in Sudan is being traded at around USD. 1000.00 pmt fob provided you can get cargo shipped out and trades are slow, mainly to China. Tanzania and Mozambique are looking hopeful for now for shipments to commence in May – June as moisture levels are still fairly high. Again, these are all Spanish / Java varieties.

Please find below prices for Non EU Cargo on a Fob Mundra / Pipavav basis for goods packed in 25 / 50 kgs pp bags :

Bold 38/42 : USD. 1365.00 pmt

Bold 40/50 : USD. 1330.00 pmt
Bold 50/60 : USD. 1285.00 pmt
Bold 60/70 : USD. 1250.00 pmt

Java 50/60 : USD. 1280.00 pmt
Java 60/70 : USD. 1260.00 pmt
Java 80/90 : USD. 1225.00 pmt

Java Type 50/60 : USD. 1210.00 pmt
Java Type 60/70 : USD. 1190.00 pmt
Java Type 80/90 : USD. 1150.00 pmt

Blanched Whole 40/50 : USD. 1590.00 pmt
Blanched Whole 50/60 : USD. 1560.00 pmt

Blanched Splits 40/50 : USD. 1520.00 pmt
Blanched Splits 50/60 : USD. 1485.00 pmt

The blanched cargo is offered basis 25 kg vacuum bags with outer pp bags.
